DAKOTA GOLD CORP.
ENVIRONMENTAL POLICY

Adopted as of February 16, 2023 and last reviewed on February 16, 2023

Introduction

The Board of Directors (“**Board**”) of Dakota Gold Corp., and its wholly-owned subsidiaries (collectively “**DGC**” or the “**Company**”) have adopted this Environmental Policy to communicate our approach to environmental management. The Company is dedicated to delivering sustainable outcomes, ensuring that the environmental impacts from our activities are minimized, and the natural resources over which we are custodians are responsibly managed.

DGC’s approach to environmental management directly reflects our commitment to local communities. Our goal is to ensure that South Dakota is better off for our operations being a component of the local community. The Company understands that our activities have a direct impact on the environment due to the need to access land and water resources. We strive to operate in a way that utilizes previously disturbed areas, protects clean water, and minimizes carbon emissions.

Our Environmental Commitment

DGC is committed to implementing high standards of environmental performance and industry best practices in all of our operations. Our approach to environmental management enables us to proactively identify and manage potential environmental risks associated with our activities, minimize direct and indirect environmental impacts, and meet our compliance obligations and voluntary commitments.

To achieve this the Company will:

- Comply with applicable laws, regulations, and the voluntary commitments which we have adopted.
- Protect the environment by applying proven best management practices to prevent pollution and mitigate impacts.
- Integrate environmental management into the way we operate and promote environmental responsibility among employees.
- Continually improve our operations and hold ourselves accountable for our environmental performance.
- Communicate and engage transparently with internal and external stakeholders.
